

Rinsing agent

AlmaWin cleaning products are convincing through best quality regarding protection of the environment, dermatology and efficiency. Our ecological ingredients are very skin mild and gentle to the skin and they are successfully dermatologically tested. Our ingredients are based on raw materials of vegetal and mineral origin – if available certified organic. AlmaWin renounces on synthetical colorants, perfums and preservatives, on petrochemical ingredients and on nanotechnology. Genetic engineering is of course a no-no, too. All ingredients are bio-degradable and of natural origin.

Ingredients:

<5% nonionic surfactants (saccharoidal surfactants). Further ingredients: water, citric acid, ethanol, lactic acid. 100% of the ingredients are of natural origin.

Characteristics:

citric and lactic acid together with vegetal alcohol provide ideal brilliant dishes.

Dosage:

Add the rinsing agent to your dishwashers rinse aid compartment according to manufacturers instructions. Please take care of the local water hardness. Our hints: Droplet marks or stains = increase rinse aid setting. Streaky dishes = reduce rinse aid setting.

Product sizes:

500 ml – bottle

Application:

For all commun household dishwashing machines. Add the rinsing agent to your dishwashers rinse aid compartment.

By using AlmaWin rinsing agent together with AlmaWin dishwashing powder or AlmaWin dishwashing tabs and AlmaWin dishwashing rinsing salt you guarantee excellent cleaning results.

Awards:
